

Unless noted otherwise, readings are from Joan Baker-González et al. (2006ms), *Monitoring Speech: An Introduction to Articulatory Phonetics*, and assignments are from the text (if marked TXT) or from Joan Baker et al. (2006ms), *Workbook to Accompany Monitoring Speech: An Introduction to Articulatory Phonetics* (if marked WKBK). For all assignments from the text: unless indicated otherwise, you are responsible for all definitions, distinguishing terms, and discussion questions, though only answers from discussion questions will be checked. In addition to text and workbook exercises, there will be numerous additional homework assignments (e.g., several phonetic transcription exercises) that will be provided to students in photocopied form (labeled with “HW”).
